YOUR EVALUATION QUIZ GRADE

- **Excellent:** Congratulations! You are well on your way to surpassing your competition and receiving many interviews for appropriate positions.
- **Average:** You have a resume that is similar to most in the market; however, it still needs to positively stand out from potentially hundreds (if not thousands) of other job applications.
- **Below Par:** You are probably missing out on several job opportunities. That is why you would benefit greatly from retaining me to help you.

Why Should You Invest in a Professional Resume Writing Service?

With the brutal competition that job-seekers can face today, you are wise to invest in a professionally-prepared resume so you can increase their chances of dramatically shortening your job search. **Sadly, those who attempt to craft their own resumes typically experience - at the very most – a 2% success rate in landing the interview.**

By contrast, I sport a 97% success rate for the role I play in helping my clients get to the interview stage - much higher than the 80% average that most professional resume writers can attest to. Ultimately, one of my customized resumes – clearly articulating your unique benefits and value – will pay for itself after only a few hours of starting a new job.

Always striving to offer highly-personalized and the very best customer service possible, I continue to play an integral part in raising your self-esteem while you are seeking a new job – or a new career, for that matter.
